

Business Areas

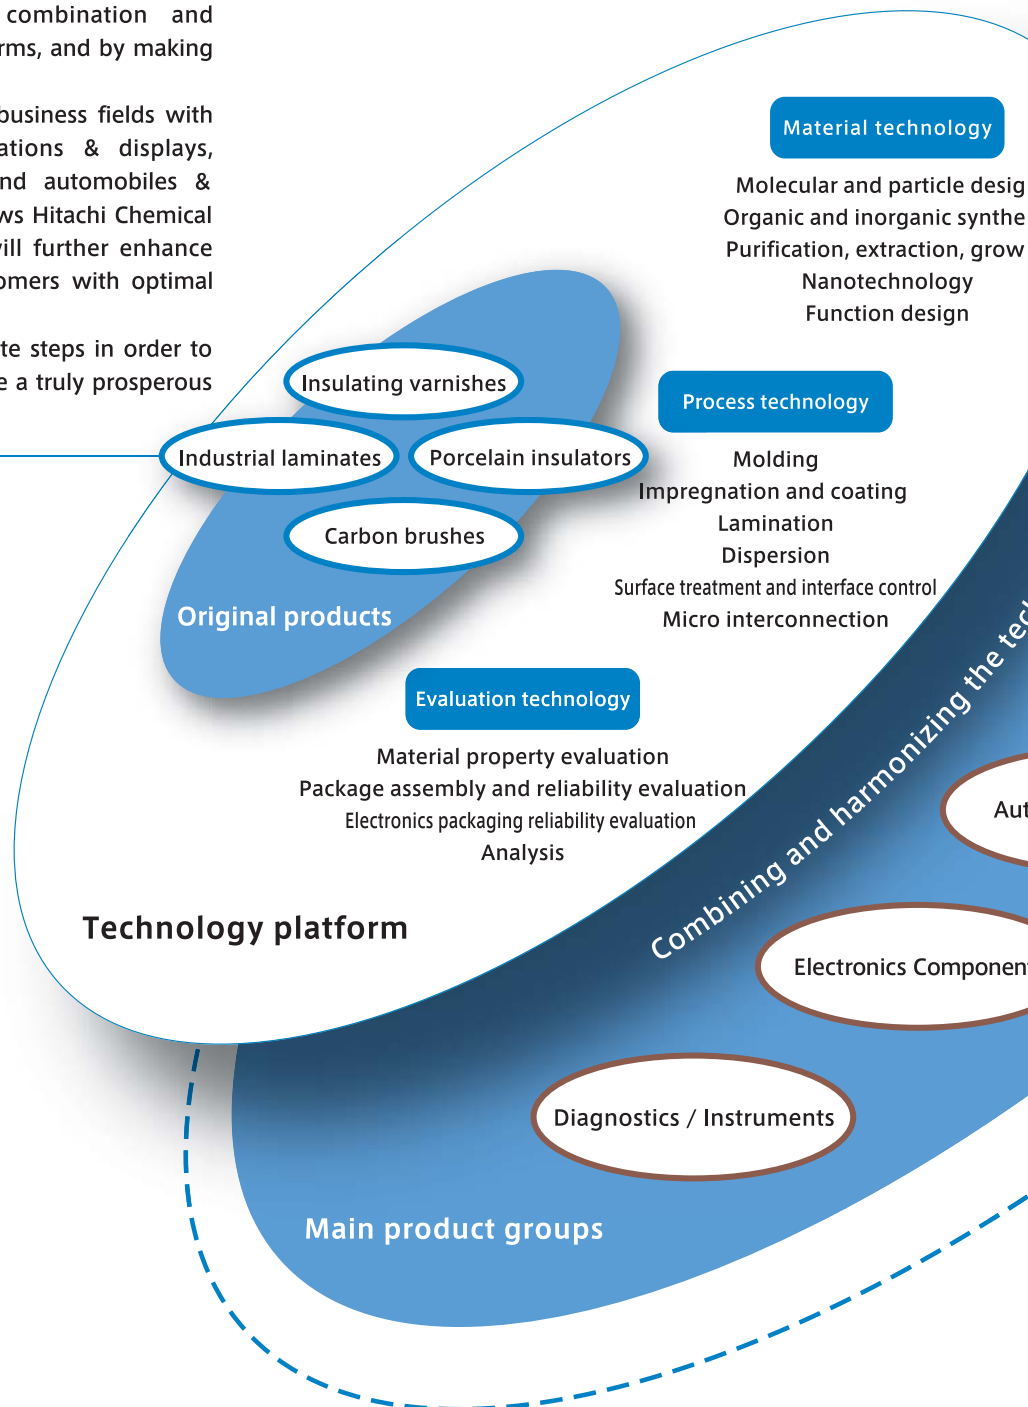

Broadening and deepening technologies and the demands of the times creates the future of Hitachi Chemical.

A wide range of technology platforms developed from four original product groups—insulating varnishes, industrial laminates, porcelain insulators and carbon brushes for motors—has been the springboard behind Hitachi Chemical's product development ever since the Company's establishment.

Hitachi Chemical has extended its scope of business activities through the borderless expansion, combination and harmonization of these technology platforms, and by making active use of customer communication.

Hitachi Chemical will prioritize four key business fields with high growth potential—telecommunications & displays, environment & energy, life sciences, and automobiles & transportation infrastructure—which allows Hitachi Chemical to make the most of its strengths and will further enhance and promote its efforts to provide customers with optimal solutions.

Hitachi Chemical continues to take resolute steps in order to lead the way to a new era and help create a truly prosperous society.
