

# Overview of environmental impact (material balance)

## P16 CSR Policy 5

The Hitachi Chemical Group promotes Monozukuri for reducing environmental impact throughout the product life cycle to create an environmentally harmonious, sustainable society in the supplying of products and services.

To this end, we verify environmental impact during the production process as well as at each stage of R&D, raw material procurement, distribution and product usage, in order to reduce environmental impact of all our products at every stage.

### Material balance (consolidated) (FY2008)
