Notes:

1. Since 2014, the Company has been the subject of investigations by competition authorities of multiple countries and regions into past cartel activities related to the capacitor business of the Hitachi Chemical Group. In March 2018, the European Commission issued the Company with an order to pay fines for a violation of the EU competition rules. In addition to the EU, in the U.S., the plaintiffs, the purchasers of capacitors filed a civil litigation against the Company seeking compensation for damage on grounds of a violation of the U.S. antitrust law as a result of an engagement in cartel activity. In the fiscal year of 2017, the Company entered into a settlement that provides for, among other things, the payment of settlement money. The Company positions the implementation of sincere company activities based on “Basics and Ethics” as its important corporate imperative. Each of the Outside Directors regularly has been providing comments at the Board of Directors and the Audit Committee, related to the improvement of internal control systems, compliance with laws and ordinances and other similar matters. Since those activities were revealed, they have not only provided comments related to compliance with laws and ordinances and other similar matters as before, but also expressed their opinions in order to enhance compliance systems and to prevent reoccurrence.
2.
